

Coronavirus (COVID-19) Catch-Up Premium

Coronavirus (COVID-19) Catch-Up Premium – planned spend at Lime Academy Ravensbourne

The Coronavirus (COVID-19) catch-up premium is additional funding that the Government have made available during the 2020-21 academic year to all state funded schools. These funds are for schools to use to support where pupils' learning and wellbeing have been impacted by school closures and subsequent disruption due to the pandemic.

The funds are allocated to all schools on a 'per pupil basis' for all pupils in Reception through to year 11. Special schools receive £240 per pupil.

Schools are free to spend the Coronavirus catch-up premium as appropriate based on the particular needs of their pupils and the professional judgement of teachers and school leaders. However, schools are accountable for how they use the additional funding and are expected to evaluate and monitor the impact of different approaches.

Main barriers to educational achievement faced by eligible pupils

The main barriers to educational achievement for all of the children at Lime Academy Ravensbourne are their severe and complex learning difficulties.

We are focusing on supporting those pupils most effected by the pandemic; this may be because they have not been able to attend school during the 'lockdown' or because they are struggling to adjust to the changes made to the school day resulting from the pandemic.

How we intend to use Coronavirus catch-up premium to address those barriers

We will provide additional targeted support to individual pupils to support them to catch up in their learning and to ensure their physical and mental wellbeing.

- The COVID-19 funding will enable us to provide specialist music interventions. These will be monitored by the leadership team who will evaluate the impact and make adaptations to provide the best support possible.
- The COVID-19 funding will also allow us to provide specialist books to ensure all pupils are exposed to texts matched to their need and learning experiences are optimised.
- Wider strategy spend will include enhancing low tech support to enhance communication and independence; and resources to support pupils emotional wellbeing to ensure they are ready and able to participate in learning activities.

Coronavirus (COVID-19) Catch-Up Premium

Amount received

For the 2020-2021 academic year, Lime Academy Ravensbourne has been allocated £20160
